Platform : ZOOM Meeting 

About us

Sreekrishnapuram V. T. Bhattathiripad College is a government aided arts and science college in Palakkad District of Kerala affiliated to University of Calicut. The College is named after V.T. Bhattathiripad who is acknowledged as one of the pioneers of social revolution in Kerala. Sreekrishnapuram V. T. Bhattathiripad College, under the management of 'Sree Sankara Trust' started functioning in December 1982. The college offers undergraduate, postgraduate courses in different disciplines. In the year 2019 the College got approval from UGC to execute an interdisciplinary research project under the scheme of UGC STRIDE Component I.

About UGC STRIDE Component 1

STRIDE (Scheme for Trans Disciplinary Research in India's Developing Economy) has been launched by the UGC in 2019 to identify young talent, strengthen research culture and to build the capacity in young talents in humanities and human science. The scheme is expected to enhance the quality and excellence in research. Component 1 of this scheme concentrates on research culture and human resource development in colleges and universities. In this context, we are proud that our college has been selected as one among the five institutions in Kerala that were approved for UGC STRIDE Project Component 1.

STRIDE Component applied by us was approved by the UGC on the topic Vedic Education System in Kerala – A Comprehensive, Scientific and Interdisciplinary Analysis. The study proposes to discover the salient features of the Vedic education system in Kerala by exploring it's amazing strength, perseverance, cognitive impact, as well as educational philosophy.

About the Course

This Online Faculty Development Programme/ Refresher Course is diligently planned around developing the foundational knowledge needed to step into the arena of research. The programme is an effort towards exploring different dimensions and paradigms of research.

Research is a form of logical analysis to investigate deeper into a theme and yield socially relevant results in different forms like an invention, research paper, patent or thesis. There are different methods of research; each characterized by different procedures. Research methodology embraces major significance as it outlines the sequence of the research endeavor and its final result.

The process of research and the related jobs need to be hypothesized properly to bring in the sufficient necessary quality in the research. Every job involved, like collection of data, examining literature review, originating a mathematical or computational solution or presentation of the results, requires a concrete and systematic approach.

SREEKRISHNAPURAM V.T. BHATTATHIRIPAD COLLEGE
